

Ice/Snow – Gritting Rota 2018/9

It takes 2/3 people, 10/20 mins to grit the hills using shovels/wheelbarrows. Obviously, it only takes one person to "inspect" the hills before deciding to call out other group members. I have divided "volunteers" into 4 groups and nominated the person responsible for inspecting the hills in the rota below. Each week starts on a Sunday evening. **If you cannot do the inspection please swap with or ask someone in your group to do it for you.**

Group A – Dean(696654), Wilson(Adrian&P)(696665), Frank(620249), Royal(624480)

Group B – Stancombe(625387), Smith(623734), Phillips(623326), Sibley (07850 605695), Wood(625965)

Group C – White(625098), Wiggins/Minchell(606993), Havard(622335), Speed(294857), Wilson(Alisdair&E)(625894), Haymer (07780 605535)

Group D – Henderson (622868), King (624823), Hague (625250), Marsden (696303), Cooper(07584 445422)

Note: Ivan/Nikki/Bob- It would be great if you could continue to look after the slope outside your house towards Coombe Hill. As/when there is major snow we'll obviously all help. If you are not around anytime please let me know and I'll take responsibility for gritting.

Ice/light snow - It makes most sense to grit the hills the evening (6/8 pm) before (black) ice or snow is forecast. Please bear in mind that an **ICY** hill is just as dangerous and needs gritting.

Major Snowfall - If a significant overnight snowfall is forecast on a working day, I suggest everyone who wants to get to work/school gather at the pond at **6.45/7.00am** to clear the hill(s).
