

## Ice/Snow – Gritting Rota 2019/20

It takes 2/3 people, 10/20 mins to grit each hill using shovels/wheelbarrows. Obviously, it only takes one person to "inspect" the hills before deciding to call out other group members. I have divided "volunteers" into 4 groups and nominated the person responsible for inspecting the hills in the rota below. Each week starts on a Sunday evening. **If you cannot do the inspection please swap with or ask someone in your group to do it for you.**

Group A – Dean(696654), Wilson (696665), Frank(620249), Royal(624480)

Group B – Stancombe(625387), Phillips(623326), Sibley (07850 605695), Wood(625965)

Group C – Stewart (07917 271007), Wiggins/Minchell (696993), Havard (622335), Hamer (07780 605535), Malleson/Amadi (07730231236/07547382446)

Group D – King (624823), Hague (625250), Cooper (07511 080780), Brackley (623659 )

*Note: Ivan- thanks for agreeing to look after the slope towards Coombe Hill. As/when there is major snow we'll obviously all help. If you or your neighbours are not around anytime please let me know and I'll take responsibility for gritting.*

<u>Date (week commencing on a Sunday)</u>	<u>Group</u>	<u>Individual responsible for inspecting hills</u>
Week starting Sunday 8 Dec	C	Havard
15 Dec	D	Brackley
22 Dec	A	Frank
29 Dec	B	Wood
5 Jan	C	Malleson/Amadi
12 Jan	D	Hague
19 Jan	A	Dean
26 Jan	B	Phillips
2 Feb	C	Hamer
9 Feb	D	King
16 Feb	A	Royal
23 Feb	B	Stancombe
1 Mar	C	Stewart
8 Mar	D	Cooper
15 Mar	A	Wilson
22 Mar	B	Sibley
29 Mar	C	Wiggins/Minchell

**Ice/light snow** - It makes most sense to grit the hills the evening (6/8 pm) before (black) ice or snow is forecast. Please bear in mind that an **ICY** hill is just as dangerous and needs gritting.

**Major Snowfall** - If a significant overnight snowfall is forecast on a working day, I suggest everyone who wants to get to work/school gather at the pond at **6.45/7.00am** to clear the hill(s).
